"Give Us Barabbas"

A Divided Country, the cause and cure

By Roy Masters

Shock the victims then accuse them of what you did is a Soviet psycho-political warfare technique now used by Moslem terrorists upon the very country of its origin -- the Soviet Union. Typically, victims take on the terrorist's identity and out of sympathy (in Patty Hearst-style) turn on their friends. This is how the Russian population might well be converted. President Putin is already getting the blame for terrorists killing school children. More to the point, America is primed for a final transforming shock.

Because a nation with values is almost impossible to conquer, Communist strategists began their systematic attack upon the American family early in the 20th century. They infiltrated our once noble institutions of education, media, and government, so that the powerful few would dominate the docile many. The Soviet Union collapsed, but the seed, once planted here, took root. The result is two Americas in conflict, with the perpetrators accusing the innocent.

They began by infiltrating our educational system and through that they made the government finance America's own downfall.

Next, they dumbed-down our children in government schools and enabled them to grow up from irresponsible teenagers into spoiled-rotten and immoral

leaving their children vulnerable; awakened unmanageable desires with obscene images; stimulated the young with pornography; glorified lowlife musicians and actors in order to sustain anti-social behaviors; made American family life cruel, base, and meaningless; doped up students to "learn;" blamed it all on fathers and capitalism.

All this weakens our national resolve and renders us suggestible to terrorist demands.

When the programmers deem it time, accuse the honorably elected of being tyrants and liars like their rotten dads. Then use

University-programmed journalists (elitist intellectuals and rebels against traditional fatherly discipline), with enabling feminine sensitivities, will then hail terrorists as heroes fighting for their rights against bullies.

Because propaganda alters the perception of reality, good becomes evil and evil becomes good; the biblical "Give us Barabbas" mentality is here. This happened to Spain, and now witness the horror in Russia; much worse is in store for us.

Knowing that the corrupted are their slaves, the programmers have created two cultures in conflict, one of them opposed to the Founding Fathers' intent. If they cannot get their way "democratically," they will incite a civil war. Now do you see why the God-centered family is the target for destruction?

I write in the hope that you will realize that our toxic culture is no accident; it is the result of a sophisticated psycho-political battle for our minds and hearts. Awaken now -- turn from your manipulator's cunning and forgive them. Throw away your drugs and booze; come home to family through the truth that makes and keeps us free.

Then they praised and excused their wildness and let them believe they were acting from their own volition; then glorified that license as freedom; nurtured failings so that they evolved into the hateful virtues of envy; held up filth as art to arouse passions to the level of addiction.

To confound us more, they forced a debilitating dependency on "experts;" designed government "mental health" programs to make perversion, mental health and emotional illness seem normal; threw money at social problems along with wrong solutions; drove women out of their homes to work,

like their rotten dads. Then use the "hate your-father-love-your-mother" media to render those perceived deadbeat dads powerless and the nation leaderless.

One day , they intend to awaken millions of angry sleepers, reared by a matriarchal shadow underworld government, to run wild in the streets bringing their beloved despots to power.

It gets much worse and the story is still unfolding. Let irrational debate grow to the point of paralyzing gridlock, to create an appearance of weakness that emboldens terrorists to blow up an entire city. Then point the finger of blame at the innocent--a father figure--for being irresponsible.
